PREFACE

State-Approved Schools of Nursing—RN 1987 provides a comprehensive list of all 1,471 RN preparation programs in the United States. The NLN annually updates its data banks on nursing education by surveying the entire universe of nursing programs and attains a 100 percent response rate. This edition covers the period from August 1, 1985 through December 31, 1986.

Each entry in this directory contains the following information on all state-approved schools of registered nursing: type of program, address, telephone number, director, accreditation status, state board approval, financial support, administrative control—as well as admissions, enrollments and graduations. Unless otherwise indicated, all schools listed in the first section must be state-approved.

Footnotes are included to help the reader understand some of the new options available to the contemporary nursing student as well as to clarify unusual features of some programs. A description of the footnotes appears on page xiii and it is suggested that you read them carefully.

The second section of the directory includes only those 164 programs designed exclusively for RNs completing their baccalaureate degrees. Addresses, telephone numbers, directors, NLN accreditation status, enrollments, and graduations are also included for each school. Those baccalaureate programs that mainstream RNs into their regular degree program are included in the first section and are accompanied with footnote #9.

Programs that admit RNs only (popularly known as BRN programs) usually are not required by law to be state-approved, since these programs are restricted to students who have already been licensed by the state. Thus, programs need not be approved by state boards of nursing in order to be listed in the second section. Lacking mandatory state board approval, there has been no central source for indentifying all such programs. Hence, listings in section two are thorough, but not necessarily exhaustive.

A few schools have requested that the statistical information provided in the annual survey not be listed in the directory. This request has been honored in the school listings.

This is one of several publications under the revised format for NLN's research publications. Other modules include: *Nursing Student Census with Policy Implications, Nursing Faculty: Socio-economic Trends,* and *State-Approved Schools of Nursing—LPN/LVN.* An annual publication at the end of the year, entitled *Nursing Data Review,* will be based on the modules and will include additional information. We hope users will find this format helpful in facilitating access to our research findings.
